DETAILED ACTION

Claim Objections

Claims 1-6 and 16 are objected to for the following reasons:

As concerns claim 1, the phrase "a hanging scaffold support comprising: having", in lines 3-4, is improper.

As concerns claim 16, a claim cannot depend from itself. For examination purposes, the examiner will assume that the applicant meant to depend claim 16 from claim 15.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-21 are rejected under 35 U.S.C. 102(b) as being anticipated by

Leonard 3,082,843.

Leonard sets forth an apparatus comprising a deck (inclusive of members 1); a hanging scaffold support having a foot (inclusive of member 6) and a leg (inclusive of member 23); a hangar (inclusive of member 38) selectively securable to the upper end of the leg to extend horizontally and comprising a lateral beam, a loading structure, and

a stop/spacer (inclusive of member 42); the lateral beam including registration surfaces (inclusive of member 43); first and second locks (inclusive of members 41, 45, and/or 47); adjustment and lock apertures and respective pins; brackets and latches for engaging the deck (as discussed in column 2, lines 35-45); and inherently, the method of positioning.
